

Long Island Association of Professional Geologists
Dinner Meeting and Talk featuring:

"The Long Island Ripple Effect. A Plan for Long Island Groundwater"

Sarah Meyland, MS JD
Bill Seevers, PH

Sarah Meyland is a water specialist with a background in groundwater protection, water resources management, and environmental law. She has worked in NY State government as the Co-Executive Director of the NYS Legislative Commission on Water Resource Needs of Long Island, as the Watershed Director for the Suffolk County Water Authority and as Program Coordinator for the Nassau County Planning Federation. Mr. Seevers is an Adjunct Associate Professor in the Environmental and Mechanical Technology Department at the New York Institute of Technology and an environmental hydrologist with over 35 years experience in domestic and international consulting. Ms. Meyland and Mr. Seevers will discuss water resources oversight presently in New York State and on Long Island. They will compare water conditions in Nassau and Suffolk Counties and outline a model for the comprehensive management and protection of Long Island's water resources.

Thursday January 19, 2012
